5000 SERIES VENETIAN BLIND

The 5000 Series Venetian Blind is a refined and well-engineered blind. The headrail is an attractive slim section which is extremely strong, and the whole system is designed for demanding contract environments. The tilt mechanism is geared for lightweight and easy use.

5000 Series Venetian Blind metal slats are tested to demanding standards and rigorously tested to guarantee trouble free function, performance and service durability. Timber slats are sourced responsibly from sustainable sources.

The design and manufacture of each system takes into consideration Health, Safety and Environmental issues in compliance with the relevant European legislation.

The system highly versatile and comes in a variety of slat widths and operation methods, covering windows, roofs and many situations.

APPLICATION

- Vertical windows
- Large curtain walling
- Sloping windows with guide wires / rails up to 15° from the vertical
- Doors
- Sealed in secondary glazing and internal screens
- Roofs (tilt only)
